I have as yet received but little intelligence of the meeting of the Press Association. The Mobile papers of April Sch, 11th and 14th, are all that have reached me, and their accounts are very meager. What is the matter that you can make no arrang ments with the Postmacter General for a line of couriers across the river for account of the Press Association. I do not see what harm it can possibly do the Post Office

ree from the Yaukees, etc. "No press report of the date of this letter has been received.

To CORRESPONDENTS -Corps, division, origads and company officers sending lists of constablies in their respective commands would confer a favor upon the printer by sending their reports in a shape like the following: Casualties in Smith's brigade, Tennessee troops, lat detached, have done in Smith's brigade, Tennessee troops, lat regiment-Cal Jones, wounded, slight; Captain my Dann, killed; Sergt Glover, side, severe: Thes. White, neck, slight; John Jones, abdomen, mortal, eo B; etc., placing the men from each State goder one head, and classifying them according to regiments and companies.

BEFORE THEM "-The Mobile Advertiser and Register learns from a private source, entitled to the juliest credit, that Jore Clemens has emigrated from Huntsville to Philadelphia, with the intention. it is understood, of residing permanently at the North. Dr. Willeinson has also removed to Philadelphia, Saroni and Powers to Louisville, and Young, who kept a drug store, to St Louis. All these are joints in the Southern tail of the Yankse Minotaur in North Alabama. Their departure just now looks as if, in the light of coming events, they considered their elimation rather press rices.

Loss or GENERALS -Since the opening of the spring campaign our less in general officers same length of time since the war began. We have lost Gens. Monton and Green, in the trans-Mississippi department: Gon. Polk, of the Terrouse army; Gon J E-B Stuart, of the Virginia army; and soveral others have been either unded or had their horses shot from under hem. Now, in cases of emergency, it is necesnersen; but that true and gallant officer, Gen d prevailed on the general to vetire to the rear, while every soldier was exclaiming, "To the rear, Gen. Lee!" Gen. Lee retired, and Gen. Gorden led the charge, resulting in a glo-

COUS SUCCESS. Suppose Gen. Lee had insisted on leading that arge, and had fallen, would be have performed is duty to his country? This is a portinge question, which all our general officers should awer to the best interests of the constry. cane of us doubt the courage of our officers and it is a duty they owe to their men and their country not to necessarily expose their lives .-LaGrange Reporter.
